Educational Background

Bachelor of Science, University of Wisconsin-Stevens Point, May 2010

Major: Corporate Health Promotion

Seibel Brewing Technology Certification, Seibel Institute of Technology,

November 2014

Work and School Experience

MillerCoors, Milwaukee, Wisconsin, June 2013- August 2019

Senior Process Leader, May 2014- August 2019

Process Leader, June 2013 - May 2014

- Serve as the manager of all operations, initiatives, and projects that take place within MillerCoors Milwaukee's brewhouse
- Lead a cross-functionally focused improvement team in an effort to reduce the brewhouse's macro extract (waste) loss, driving a ½% improvement (\$300k projected yearly savings) in the first six months of team's formation
- Implement and utilize lean manufacturing tools to drive process change and improvement
- Manage the execution of weekly and monthly brewing schedules through structured monitoring and a focus on continuous improvement
- Utilize trended product analysis to make recipe adjustments on a daily and weekly basis
- Adjust and improve brewhouse labor effectiveness in an effort to execute brewing schedules and initiatives within the department's labor budget
- Routinely utilize root-cause problem solving tools to react to experienced process issues
- Lend management support to fermentation and finished beer work groups as is needed for the department

E&J Gallo Winery, Livingston, California, August 2011-June 2013

Operations Team Leader, Training Specialist, February 2012-June 2013

Production Team Lead Assistant, August 2011-December 2011

- Led a team of 40+ employees including shift leaders, equipment operators, and seasonal staff in the production, treatment, and storage of wine in E&J Gallo's (and the world's) largest winery
- Served on a cross-functional start-up team for \$100M+ winery expansion with responsibilities including: operator training, lean manufacturing implementation, standard work creation, and general seasonal preparedness
- Worked alongside Lean Six Sigma Black Belt team to introduce and implement lean manufacturing practices throughout winery expansion
- Utilized data regarding yield, product treatment, overall equipment effectiveness, and operator performance to make operational adjustments in order to achieve production targets
- Coached, monitored, and adjusted production processes to ensure job safety, facility and equipment sanitation, standard operations, standard leadership work, GMP, and lean principals

Beaumont J. Luce

Denver, Colorado / Phone: (608)-434-2379 / Email: beaumontluce@gmail.com

- Led employee engagement team in an effort to address organizational opportunities
- Monitored, enforced, and taught winery safety regulations
- Streamlined grape receiving and pressing area sanitation and sanitation inspection processes, improving sanitation compliance scores by 9.5% from previous harvest season

Select Staffing at E&J Gallo Winery, Livingston, California, May 2011-August 2011 Safety Standard Work (Lockout-Tagout) Project Primary Contributor

- Developed equipment-specific work instructions for over 1,500 pieces of winery equipment
- Developed a visible Lockout-Tagout work aid to be utilized in the field by all winery teams
- Regularly consulted with winery mechanics and winery leadership members to ensure the accuracy of the procedures and the overall scope of the project
- Attended team meetings concerning site safety and production procedures

Concrete Ideas, Baraboo, Wisconsin, Seasonally 2004-2010 Crew Leader and Installation Specialist

- Led 3-5 member teams in concrete overlay and epoxy flooring preparation and installation operations
- Utilized standard installation instructions and operated installation equipment to complete projects of excellent quality in a timely manner
- Monitored crew members and work sites to ensure company safety standards were in place
- Interacted with customers to communicate installation costs and timelines, quality expectations, and energy requirements

Skills

- Strong leadership and coaching skills
- Understanding of lean manufacturing practices and ability to apply lean concepts to processes
- Ability to learn and adapt quickly in high speed settings
- Demonstrated ability to deliver high quality results in high-pressure situations
- Strength in evaluating, planning for, and achieving team and individual goals
- Excellent written and verbal communication skills

Areas of Other Involvement

- Community-Based Mentor, Big Brothers Big Sisters, Milwaukee, WI 2017-2019
- Guest House of Milwaukee Volunteer, Milwaukee, WI 2015-2017
