Hi, I'm Ben and thank you for taking the time to view my resume.

My work ethic can be described as I believe in hard work being completed in a very timely fashion. I'm AD/HD so I'm very energetic and fast paced. I typically don't like taking breaks cause I don't like to stop what I've started but will if a boss tells me to.

My goal is to become more dependable because I'm getting to the point in my life I can't take it easy and need to actually start taking care of my financial well being
