

Benjamin Johnson 2307 Midpoint Drive Fort Collins, CO 80524 (970)-692-7497

Skills & Abilities

Adept in Carpentry, 5+ years' experience in Custom Framing and Finish work. From framing homes to tiling, drywall and cabinetry. Able to read and work from blueprints.

Adept in machining, 2+ years' experience running CNC and manual machines in a factory setting. Able to discern quality from defective products. Able to read prints and do offsets in programming.

Able to work in highly scrutinized fields and preform duties to an outstanding level of quality.

Experience

[CNC Machinist] {Fermer Precision Ilion, NY} (2010-2012)

Ran multiple CNC lathes for the 1419 lisk, a cast iron part necessary for all Volvo diesel engines to operate. Work with under .0001 of tolerance in quality control. Made offsets, tool changes, and preformed maintenance on the machines. This was a factory floor setting.

[Manual Machine Operator] {Just-In Machine Works Lafayette, LA} (2014-20150)

Operated manual machines, including but not limited to lathes, press brake drill press. Made various custom parts for numerous clients in a small shop setting.

[Sheet Metal Roofing] {Various locations across the country}

I have travelled with companies and bid private contracts for my own work from New York to California and from Ohio to texas.

[Custom Framing Carpenter] {Both for private contractors and myself}

I have travelled for years working for corporations such as U-Build It, and for private contractors and also on my own framing new dream homes and remodeling older structures for home owners and commercial businesses all across the country. I have spent time chasing hurricane damage down the east coast rebuilding people's homes and framing new mansions in Colorado as well.

Education

[Maine-Endwell High School Maine-Endwell NY] {High School Diploma}

Graduated with regents diploma in 2009

[Broome-Tioga Boces Vocational School Binghamton, NY.] {Carpentry Certification}

Two years of vocational training in carpentry and wood shop work.

[Mohawk Valley Community College] {Geology Major}

Completed two semesters while working 60+hours a week. Bachelor's degree not completed.

Communication & Leadership

I have excellent communication skills, from running my own crews to dealing with customers, my patience and charisma have definitely been honed to create a clear and simple message while instigated negative performance from coworkers, employees and customers.
