Knowledgeable maintenance/mechanic offers 6+ years of troubleshooting and repair experience with advanced technical knowledge. Diligent, dependable and service-driven with strong safety record and excellent follow-through. Well-versed in consulting blueprints and schematics to assess repair needs.

## Work Experience

---

### **Mechanic, Technician, Welder**

Sxsperformance - Denver, CO

October 2023 to February 2024

Diagnosed mechanical problems on a wide variety of vehicles using specialized tools and equipment.

Performed preventive maintenance services such as oil changes and tune-ups on utv/ATV.

Inspected, serviced, and repaired brakes, exhaust systems, transmissions, engines, suspension systems, drive trains, fuel systems and other vehicle components as required.

Repaired or replaced worn parts such as brake pads and wheel bearings using hand tools and power tools.

Explained technical diagnoses and needed repairs to non-mechanical individuals who lack technical knowledge.

Assisted fellow mechanics when necessary during complex repairs.

Installed a wide range of aftermarket parts

Replaced complete chassis after we seen they were bent or tweaked

## **Owner, Operator, Mechanic, Front Desk**

Rocky Mountain Auto Garage - Aurora, CO

January 2012 to March 2018

I worked on a lot of cars, trucks, motorcycles, and small engines. Assembled motors, diagnosed vehicles before working on them, rebuilt suspension, drivetrains, did motor swaps, custom fabrication, some body work, replaced, clutches, did head gaskets, timing belts, fluid transfers,

MIG, tig and stick welding. I was ase certified in HVAC but that was over 6 years ago.

## **Tow Truck Operator**

Tech towing - Aurora, CO

January 2000 to August 2016

My father operated and owned tech towing growing up so I was always going on rows with him, loading cars as I got older, driving the truck around the yard before I got my license. Drove the truck once in a while after I got my license. Loaded cars while he did paperwork, hooked vehicles stuck in snow, accidents for state patrol safety chained the cars, rollovers, changed tires and wheels on the tow trucks, took off all the old grease and re greased the inner bed rails, replaced, head gaskets, replaced sleeves during rebuilds, replaced hydraulic hoses and pto's, re wired the lights due to corrosion, replaced leaf springs (no air ride on the 94), and more.

## **Mechanic/Tire Technician**

D & D tire and service - Aurora, CO

January 2010 to January 2012

Executed preventive and corrective maintenance on work trucks and other vehicles.  
Maintained garage safety protocols to meet regulatory and company expectations.  
Assisted drivers by safely directing vehicle backward to position correctly.  
Connected electrical wiring to control panels and electric motors.  
Monitored shop equipment to maintain safe working condition.  
Improved function of engines by replacing spark plugs, fuel filters and defective sensors.  
Examined all critical vehicle systems and parts to determine appropriate repairs and costs.  
Evaluated vehicle schematics to assess required parts and order accordingly.  
Used diagnostics and troubleshooting tools to identify failures and equipment issues.  
Collaborated with others to discuss new [Type] opportunities.
