

Blaise Gregory

CNC Machinist - Aubright

Saint Cloud, MN 56301

imfistingpanda@gmail.com

320-223-5199

To inform my potential employer that I am more than qualified for the position that is being applied for. Below I have provided criteria to show my qualification.

Work Experience

CNC Machinist

Aubright - Saint Cloud, MN

April 2019 to Present

Run Komo CNC routers. Plastic cutting CNC company. Use CAD-CAM programs. Edit programs with g-code. Read blueprints, use mics and calipers. Download program, read through blueprint, checking tolerances, and tooling tools, then edit the program, set comps, cut the plastic and measure all my dimensions.

CNC Machinist/ Hobber

Columbia Gear - Avon, MN

December 2017 to September 2018

I was known as a "hobber" within the company. This allowed me to operate Gleason machinery to make precise gears according to their blueprints and instructions. The company taught me how to set up different hobbing machines

Picker/ Forklift Operator

Arctic Cold Storage - Saint Cloud, MN

July 2016 to December 2017

I would get packets that had a list of required products to pull and create pallets with. Once the list was received I would use a forklift to pull and put back pallets needed to take products from. I would enter all of my information into the company tablet and send the finished pallets on their way onto a truck.

General Operator

RDO - Con Agra Foods - Park Rapids, MN

June 2013 to November 2015

In this company I started as a lab tech, grading finished and unfinished products. I then got promoted to a palletizer operator where I would operate large scale automatic palletizers. I then got promoted to package operator lead op, where I would operate a sequence of 5 machine lines putting as much finished product as needed in bags, then boxes, then down to the palletizers. I then got promoted to a process operator, making objects from a raw to a finished product through a large network of machinery. I finally got promoted to general operator where I would oversee every inch of the line from the raw products to the finished packaged products.

Education

High school or equivalent

Skills

CNC, Cnc Machine, Blueprint

Certifications and Licenses

Certified Forklift Operator
