### SUMMARY

I have over nine years of experience supervising production in the plastics industry. Within this time, I've had the opportunity to serve three fantastic organizations in a hands-on leadership role assigning personnel according to scheduled priority. My entire career as supervisor has demanded the assumption of multiple roles, with an average staff of 10 operators. Specific machine expertise with VanDorn/Demag, Nissei, JonWei, TOYO, Wujin, UBE, BOY and Hettinga. I love what I do and I see myself in this career path for many years to come.
