Objective

To obtain a career as a: professional position as a Quality Control/ Production Technician within a stable and growing organization. I look to expand and progress within my career. I am a professional looking for an organization to grow within.

Relevant Experience and skills

Trainer/Management/Customer Service

- Trained and hired new employees to open new stores.
- I am a highly effective trainer and manager. I utilize these skills (learned in the military and health care settings) to help in any position I have held. I trained new employees for a store opening from day one.
- I retain information quickly and have the ability to teach and train others. I am a highly effective trainer and manager. These are skills I obtained while in the Navy and health care fields.
- Mentored new sales people in my region.
- Surpassed all sales goals set by the corporate office and set higher goals for myself.
- I opened 8 new stores in the Minnesota region in the time I was with Little Caesars.
- Supervised multiple stores in daily operations, labor, food, paper costs, and scheduling of management.
- Demonstrated extensive problem solving skills as these stores were opened with 90% new employees.
- *Multitasking would be an understatement.*
- I have always figured that my biggest sale is to sell myself. I have to be a product knowledge expert with anything I'm selling. I have a philosophy of treating any potential or current client as I would want my family and friends treated.
- Obviously I have often been promoted in a short time of proving myself capable and competent.
