OBJECTIVE

To become an integral part of a quality-oriented technical setting which will provide professional growth and allow me to showcase my high mechanical aptitude and ability to comprehend and learn quickly, work productively on an individual or collaborative level, and utilize my current knowledge of surface mount equipment.

EDUCATION

Notre Dame High School

High School Diploma '82

Motorola-Sponsored Classes

Level I Operations and Maintenance Course for DEK 265 Screen Printing Machine

Panasonic Operator and Advanced Maintenance Training for MVII and MPAlII

Universal Equipment Operator and Advance Maintenance Training for HSP 4791 and GSM 4681A

**Complete list of Motorola courses can be provided upon request.*

PROFESSIONAL EXPERIENCE

Underwriters Laboratories

2000- 2012

Laboratory Technician I

Northbrook, IL

- Examined test samples and read both measuring instruments and operational instructions.
- Tested samples according to UL safety standards.
- Operated and performed routine maintenance on designated machines, including furnaces, ovens, electrical test equipment, temperature indicating devices, analytical balancers, meters, hand tools, and environmental chambers.
- Received instructions from and reported data to engineers and other laboratory personnel, and recorded observed or calculated data on appropriate UL forms to prepare reports.
- Provided training and assisted others in the laboratory, while communicating with plant department personnel to offer suggestions pertinent to equipment needs and disposal of samples upon project completion.

Panasonic Factory Automation

1998-1999

Service Engineer & Technical Trainer

Franklin Park, IL

- Acted as Field Service Support of the Create line of surface mount manufacturing equipment.
- Conducted basic and advanced level customer training on all Create surface mount equipment.

Motorola Multimedia Group

1995-1998

Manufacturing Equipment Technician

Lake Zurich, IL

- Oversaw programming, troubleshooting, and maintenance of surface mount technology equipment, including solder printer, high speed flexible placement machines, reflow ovens, and board-handling equipment.
- Coordinated preventive maintenance efforts for three double-sided reflow lines.
- Implemented fixtures for improved PCB support within placement machines.
- Acted as support engineering during set-up and production of first run boards.

Motorola Cellular Infrastructure Group

1994-1995

Machine Programmer/Operator & Prototype Lab

Arlington Heights, IL

- Oversaw proto board automated placement file generation (Panatools), set-up, debug, build, and break down processes.
- Conducted advanced machine operations and custom projects.
- Provided support for machine maintenance.
- Worked directly with engineers on advanced technology for future products.

Machine Operator, NAMPS**1992-1994**

- Worked as team leader for production line.
- Provided minor machine maintenance.
- Conducted training for new personnel.

Machine Operator, Automated Insertion Front End**1989-1992**

- Acted as Operator for Panasert MK100.
- Learned to operate Amistar DIP inserter.
- Functioned as Team Leader for reflow line.
- Provided minor machine maintenance.

Safeco Co.**1984-1989****Quality Control Technician****Chicago, IL**

- Performed random sampling for floor quality control tracking.
- Worked with customers to show product and any quality issues.
- Oversaw quality control for final packaging before shipping.
- Worked with all types of test fixtures, calipers, etc.

SPECIAL SKILLS

Computer Knowledge: Windows 7, Vista, XP
Microsoft Office 2011 (Word, Excel, PowerPoint, Publisher)

General Knowledge: Bilingual in English and Polish
Self-motivated, highly dependable
Enjoys the challenge of a demanding schedule

PROFESSIONAL INVOLVEMENT AND HONORS

Underwriters Laboratories Mark of Employee Excellence Award for Fluids, Gas, and Oil Lab
