OBJECTIVES

To obtain a position where I can use the skills that I have obtained to grow with the company.

EXPERIENCE

Facility Manager | Code Red

December 2013 - Present

- Recruited to identify potential improvements to Standard Operating Procedures utilizing key performance indicators
- Generate daily inventory reports to prioritize the distribution of all merchandise and delegate responsibilities.
- Responsible for coordinating maintenance of facility, equipment and vehicles to ensure DOT and OSHA compliance and minimize overhead
- Direct internal sales team on daily capacity, advise staff on complex situations and resolve client-critical discrepancies

Inventory Control/Receiving Coordinator | Medsafe

June 2010 – November 2013

- Proficiently utilize SAP based program to track/approve shipments and maintain proper invoicing
- Confer with department heads and VP of Operations to ensure coordination of warehouse activities involving production, sales and purchasing
- Promoted in February 2011 to Warehouse Manager that required effective supervision of 10 direct staff and 10 indirect staff in addition to screening and hiring new warehouse personnel and issuing work assignments/schedules
- Promoted in April 2012 to Inventory Control/Receiving Coordinator which requires accurately maintaining inventory balances as well as monitoring & coordinating the flow of merchandise at the facility

Department Manager | Wal-Mart Store # 5116

March 2006 – June 2010

- As a receiving associate, was responsible for unloading all incoming general merchandise from delivery trucks, pulling the freight to the floor in the evening, and stacking all merchandise in an orderly and timely manner
- Advanced in August 2006 to inventory control specialist which required organizing the backroom area by unloading the merchandise and working out the department bins located within
- Promoted in October 2006 to Department Manager which entailed hourly supervision over the entire pets department to include purchasing, sales, recaps, inventory, scheduling and product flow
