## Work Experience

---

### **Fabricator/Welder**

Method Building Systems-Loveland, CO

November 2017 to January 2025

I have been employed most recently at a steel fabrication shop focused on staircases and structural framing. My daily duties include loading, and unloading large steel orders with a forklift, taking inventory on incoming materials, and fabricating stairs, landings, and railings. I have 7 years of experience with band saw operation, drill press operation, iron workers, oxy/acetylene and plasma cutting, laser CNC operation, and mag drilling. I am extremely capable with angle grinders of all sizes whether using cut off wheels, or hard wheels, or finishing pads for high end ornamental products. Most of my experience is building stairs, landings, and railings, but also have worked with aluminum spool gun welding, and structural fabrication as well. I am proficient in MIG welding, and FCAW in 3g, 4g, and 5g, and have a base knowledge of Aluminum TIG, Steel TIG, and SMAW. I am not certified at the moment, but would be able to produce coupons for certifications if necessary. More than anything, have an impeccable record for producing quality product to spec, and take great pride in my craftsmanship. I have the ability to make necessary adjustments on the fly when need be. I work well in ANY team, however, I am also able to produce quality product in a timely manner when working solo. I enjoy making art and exploring the creative side of fabrication as well. I firmly believe I will be a valuable asset to any fabrication shop that is in need of a qualified, and motivated fabricator to join their team.

## Education

---

### **High school diploma**

Providence High School - Charlotte, NC

August 1999 to June 2002

## Skills

---

- Fabrication
- Blueprint Reading
- Welding
- Mechanic Experience
- Forklift (7 years)
- Inventory Control
- Electrical Experience
- Quality Assurance
- Management
- Equipment Repair
- Troubleshooting
- Plasma Cutting

- Assembly
- Manufacturing
- Blueprint reading
- Welding
- Assembly
- Manufacturing
- Typing
- 5G
- Basic math (10+ years)
- Hand tools
- Power tools
- English
- Organizational skills
- CNC
- MIG welding
- Stick welding
- Communication skills
- Press brake machine
- Machining
- TIG welding
- Construction painting
- Heavy lifting
- Construction
- Electrical wiring
- 4G/LTE
- 3G
- Mechanical Knowledge
- Computer Networking
- CNC laser cutting (2 years)
- Grinding (7 years)
- Forklift (7 years)

## Certifications and Licenses

---

### **Driver's License**

June 2023 to June 2028
