### **Place Kicker**

Colorado State University Football - Fort Collins, CO

August 2015 to December 2019

While Playing Football for Colorado state University, I worked all summers and through the seasons as I started out my first 3 and half seasons as a walk on in which i ended up playing in 52 total games and playing in 4 and half seasons. In this process I learned accountability, how to be a part of a team, time management, and hard work. With that I am a very competitive person and strive to be the best I can be but also help those under me and around me reach there goals as well. Playing football, working and getting my degree all at once left me with great memories and a long story but ultimatley the qualities and expeirances it provided me with is what I am most thankful for.

I washed the cups at the bar and took out the trash as well as brought ice to the bars when needed. I ran food to the tables while a food runner and made sure the food was correct before taking or sending it out to the guest. As a host also learned how to use the system and take to go orders while also learning the best way to seat for the restaurant to run as smooth as it could without double seating and backing up the kitchen.

Worked front desk for a small period of time and was in charge of setting up the experience for the guests making sure they got what they needed and what they were looking for so had to be very specific and detailed when explaining how everything Fort Fun had to offer worked to provide them with the ultimate experience and customer service.
