WORK EXPERIENCE

Inventory Specialist/ HUB Manager

Advance Auto Parts - Austin, TX -

2015-09 - 2018-03

My duties required me to accept truck 2 time a week. I had to scan in every piece of product. Which varied between 1900 to 3500 pieces. Then had to put all product away. Everyweek I would have to do cycle counts and correct any inventory issues. I also help set planograms every week. I would also prep truck to ship out 2 times a week. I also had the responsibility to open and close the store.

I also had the responsibility of 3 drivers. Each driver had 4 to 5 stops. Any parts ordered would be delivered by my drivers to various locations around the metro Austin area.
