

Brian Tatman

1221 Crestway court, Fort Collins, CO 80526 C: 970-219-6709

Objectives:

My objective with your company is to represent it in a professional manner at all times and offer my experience so we can strive to meet all company objectives together. I am a firm believer in training my replacement, I will learn as much as I can from those with more experience and train those with less. I will strive throughout my employment to become quicker and more efficient in all aspects of my work. My experience will be used as a building block to further expand my knowledge which will be used to be an effective employee and valued coworker. When we are set to a task, our team will be able to work together to produce the best product.

Accomplishments:

I have been given an eventual promotion for every company I have worked for in the past; due to my ability to learn quickly and adapt to situations when presented with them, as well as my enthusiasm to continue learning and go above and beyond my role. My high effort will demonstrate why I stand out compared to an average employee, and at the same time I can use my experience to train those around me to be more efficient at their jobs as well.
