EXPERIENCE

July 2023 – Jan 2024 Booth Motors

Mechanic

Assist automotive mechanic in performance of maintenance and repair on all combustion powered vehicles. Help with repairs that can be accomplished by removing, replacing, adjusting, or cleaning defective parts or components such as fouled spark plugs, work brake shoes, water pumps, engine gasket belts and hoses, etc. Under direct supervision of the automotive mechanic, remove and replace with standard parts, items such as spark plugs, fan belts, starters, fuel pumps, mufflers, etc. Observe environmental, safety, and security rules and regulations. Clean shop area, as required, or requests patrons to tidy up their own work areas.

A basic knowledge of automotive repair such as:

- Perform scheduled services on vehicles. These services include oil and filter changes, transmission service, differential flushes, power steering system flushes, and brake system flushes. These services are scheduled by mileage and are in accordance with manufacturer's recommended service schedule.
- Perform troubleshooting and subsequent repairs of various electrical and mechanical systems. All repairs are to be completed using best practices and in accordance with manufacturer specifications.
- Perform shop maintenance and cleanup in accordance with industry safety guidelines and best practices. Keeping work areas neat and organized, care of tools and equipment, and reporting safety violations are necessary for safe and efficient operations.
- Customer service skills including scheduling and communicating directly with operators will be daily activities. Clear and concise communication to the operators and other mechanics is essential. Listening to and interpreting described faults from the operators to provide swift resolution to vehicle issues.

Ability to use standard and metric automotive hand powered tools. Have effective oral and written communication skills. Able to frequently lift, handle and carry objects weighing up to 40 pounds, and occasionally, with assistance, objects weighing up to and over 50 pounds. Able to frequently stand, bend, stoop, crawl, and work in tight spaces for long periods of time.
