Seeking work during the summer. Can work all weekdays for 8 hours. Looking for 40 hour work week Monday-Friday. I leave for college mid-August.

Authorized to work in the US for any employer

Work Experience

Cashier

Crumbl Cookies - Johnstown, CO

August 2020 to Present

I have done all of the jobs at Crumbl except being a Shift Lead or Manager, and mixing. Very useful experience to learn skills in a true corporate environment, instead of just the basic school sponsored jobs. Useful to learn procedure and other important information about other jobs.

Maintenance Worker

ReNew Appartments - Fort Collins, CO

July 2022 to August 2022

It was a temporary job before I left for college, working 40 hours a week fixing apartments before the big college move ins, along with learning maintenance on some interesting things.

Volunteer

Math Lab - Windsor, CO

January 2019 to May 2022

Tutor those who need guidance with math classes up to College Algebra and College Trigonometry. Strengthened student's knowledge to better understand math. Facilitated students to help get their way out of Math Lab.

Tutor (Volunteer)

Math Tutoring - Windsor, CO

September 2017 to March 2020

Tutored a student who needed help with High School Geometry. Guided the student to understand the basics and advanced details of Geometry. Guided the student to learn on their own and make sure they were confident in their skills. Tutored a student who needed help with pre-algebra.

Education

High school diploma

Windsor Charter Academy High School - Windsor, CO

August 2018 to May 2022

Associate in Science (AS)

AIMS Community College - Windsor, CO

August 2018 to May 2022

Skills

- Highly determined and responsible individual guaranteed to contribute strongly within a customer service role requiring intelligence, determination, room for growth, and an exemplary work ethic. I am also qualified to drive manual transmission cars. Determined: Won't give up on difficult tasks as long as learning how to do the tasks has some benefit that will help me in the future, such as learning more patience or self control. Willing to work hard to learn, even if it takes time. Have joined many school provided extracurriculars to learn more and gain experience. I have earned my Eagle Scout from the Boy Scouts of America. I have also spent over 10 years earning my Adult Black Belt in IKKJ (International Kenpo Karate Jujitsu). Intelligent: Fast learner, who is hunting for more knowledge. Would be wasted doing tasks that are repetitive and don't require any skills besides memorize and repeat. Mathematics: A+ math student, with ability to use superb mental math skills to ensure accuracy in order processing, cash handling, and credit transactions. Can also do more advanced mathematics such as Trigonometry and College Algebra, as well as Calculus (I, II, and III). Have participated in many different math competitions, and placed decently in them (AMC, CSU Math Day, UNC Math Contest, CMO, Math League Competitions). Technical Proficiencies: Solid command of Google Suite (Docs, Presentations, Sheets). Swift learner, learning how to code new programming languages decently quickly. (1 year)
- MATLAB
- Tutoring (5 years)
- Geometry
- Calculus (3 years)
- Dishwashing (2 years)
- Python (1 year)
