(314)688-0368

Warehousing Associate/Laborer/Worker. With 4+ years of experience working in the warehouse field for many companies that required a focused and hard-working attitude to fulfill the needs of their teams I'm ready to expand my opportunities with the knowledge that I've collected over

time.

Authorized to work in the US for any employer

Work Experience

Warehouse Associate

UPG

-

Edwardsville, IL

June 2018 to Present

Working with pallet jacks along side forklift workers and a shipping and receiving team, stacking boxes on a pallet in a specific stacking pattern read off an order sheet. From small boxes to boxes weighing up to 50lbs.

Warehouse Associate/Shipping

Newco

-

New Town, ND

February 2018 to June 2018

Worked as a warehouse Associate/shipping person where I would build water tanks using small handtools and drills, which would be used to go inside of coffee brewers that I also packed, labeled, and assembled to be shipped out to different businesses around the united states.

Recieving Associate/Packer

Keefe Group

-

Earth City, MO

October 2017 to February 2018

Packaging materials in boxes after viewing an order sheet. Also scanned the order sheet to receive a shipping sticker which would be placed on package showing it's ready for shipment

Warehouse Associate

National Cart Co

-

Saint Charles, MO

January 2017 to October 2017

Started in the shopping cart department, where we refurbished the carts down to every detail. First, we'd pick out the ones worth saving then would break them down, take off old signs, old wheels, and sand them down then get them ready for painting. Now they are ready for the signs then we loaded them for shipment.

Henkel, St. Louis City, Mo

This warehouse worked with laundry detergent and Renuzit air fresheners. I worked on a line making sure labels were on correctly not scratched or damaged or making sure the caps were on tight enough for boxing.

Warehouse Associate

UPS

-

Earth City, MO

January 2016 to January 2017

Worked for UPS as a loader, loading 18-wheelers on docks with no climate control which isn't as easy as it may sound. Even though all I did was made strong and secure walls out of boxes, you would get times where shipments are coming consistently at a face pace that all weight 60+ pounds. Also having to scan everyone with an RF Scanner.

Cashier/Keyholder/Stocker

Dollar General

-

Florissant, MO

May 2016 to December 2016

Started as a cashier and worked my way up to a keyholder after a couple months of being on the job. As a keyholder I was responsible for making voids for customers, price checking and making sure my other co-workers working the registers were comfortable, and also helping my customers with whatever they needed in any way that I could.

Education

High school or equivalent

Skills

Warehouse Associate, Picker Packer, Shipping Receiving, Order Puller, Pallet Jack
