## WORK EXPERIENCE

### **Operater**

Vestas Blades - 2015-08 - 2016-02

Build v110 blades by laying fiber glass on pre-molds and infusing with resin as well as getting the blades ready for glue up by cleaning and sanding down bond line using hand sanders and angle grinders. Also glued in the lighting system at the tip of the blades including to glueing in web blocks that held the webs in place when closing the mold to glue the two shells of the blade together to make the v110 blade. I worked on both teams of the shells department Glue and Build.

### **Quality Assurance Lead**

Quality Assurance Tech - 2012-02 - 2015-01

Inspect product to 100% protocol, As well as insuring product was within company guide lines. Worked in production as a QA Online tech for three month quickly moved up to become QA Tech Lead to Lead other QA techs to assure 92% to 98% quality of product. Excellent understanding in Production Quality Assurance/ Management Support. As being a Quality Assurance Tech Lead, I learned to have a good eye for quality and a few ways to manage a group of employee's in productive situations and at difficult ones. Also to insure all percentages, and nightly reports were sent out every night via Email to Superintendent's and Plant Management
