Experience

Silicone Products Quality Technician, BDC Laboratories, Wheatridge, CO
02/2019 - 04/2019

- Prepare and assemble materials needed for silicone mock vessel quality verifications.
- Ensure equipment is adequately tested, calibrated and/or standardized.
- Inspect finished silicone products for quality and adherence to customer specifications.
- Complete all documentation associated with a mock vessel order shipment as well as package and ship the finished products.
- Provide progress reports to management weekly,

{The gap in between these positions were due to me choosing to move back to NY temporarily where I could volunteer with my father at his business as well as help with my mother who unfortunately was very ill. I returned to CO about a month before my position at BDC Labs}

Quality Inspector, Paragon 28, Englewood, CO 10/2016 - 12/2017

- Inspected instruments and implants specifically for foot and ankle surgeries using calibrated measuring equipment
- Interpreted critical dimensions on engineering drawings and prints
- Inspected bone allograft using measuring equipment and visual criteria
- Maintained DHRs for document control
- This company is Medical Device Certified ISO 13485:2016 and CFR 820

Personal Assistant, John Francis Designs, Las Vegas, NV 10/2015 - 08/2016

- Managed almost every aspect of John's life, both personal and professional due to his extremely busy schedule.
- Scheduling clients appointments, buying plane tickets, mostly from Las Vegas to Chicago, where his business was also conducted.
- Helped care for his mother who suffers from the beginning stages of dementia such as driving her to appointments and preparing meals as well as just keeping her company.
- Scheduled meetings, attend shows with John when a client was involved, and managing every hour of his day from morning to night and communicating clearly and practically to John so that his days were

filled properly and managed efficiently to assure that his business would continue to run smoothly and his clients would continue to remain loyal and nothing less than 100% satisfied. This also meant that I had to build a professional relationship with each client of his.

Model who Serves, Wynn Hotel & Casino: Encore Beach Club, Las Vegas, NV
04/2015 - 10/2015

- Assisted the women who served VIP bottle service to customers in the cabanas.
- Bussed the VIP cabana area in a very specific and fast fashion while communicating with the female models who serve so that I was in and out of the cabanas within 3 minutes at most.
- Promote the bottle service and making sure customers were always happy and enjoying their time, most importantly making sure that drinks were being bought and the more the better.
- Outside of work I had a strict gym schedule I was strongly encouraged to follow due to the whole "model" title. (Legally we had to be called models who etc... due to the Las Vegas lifestyle and hiring process.)

Service Coordinator, Cenegenics Elite Health, Las Vegas, NV
04/2015

06/2014 -

- Facilitated connection between prospective patient and Cenegenics physicians
- Forming a relationship with Patients to assure pharmacy orders are all current and correct
- Adjust pharmacy orders and program changes
- Helped with the oversight of the brand new Inventory and Distribution Center

Inventory and Distribution Specialist, Ace Hardware RSC, Gansevoort, NY

01/2012 - 05/2014

- Developed corporate strategies for new hire employees to increase productivity and maximize cost efficiency.
- Supplemented an existing corporate training model with personal insight and measured results.
- Facilitated logistics for all Ace Hardware retail stores in the entire Northeast, ensuring that their stores are properly stocked and that extra inventory is properly distributed according to projected weather patterns and storms.

Education

Tompkins Cortland Community College

08/2008 - 09/2010

Held a 3.8 GPA while working as an RA as well as a snowboard instructor at the local mountain. When I wasn't helping young children learn to snowboard I was on campus helping out the residents of my floor with any issues they might be experiencing. And finally, I would study late into the night, while still managing my time as best as possible to maintain my schoolwork without sacrificing my grades.
