## WORK EXPERIENCE

### UCEC, Assembly worker, wiring, and QC

2/18-Current

Assemble control panels for factories and industrial processes with a wide variety of hand tools and power tools. Responsibilities include receiving and organizing parts, using Autocad/Autodesk to virtually build the panel, transfer virtual drawings to and operate automatic drill/metal fabrication machine, as well as hand cutting and measuring enclosures and fabricated pieces. Wiring requirements include reading and understanding detailed electrical schematics, installing proper wire gauge to match amperage, creating ethernet cables, ensuring all components are in working order and eventually performing a FAT to verify panel works as well as general QC.

### Mile Contractors/FedEx, Driver

11/16-2/18

Deliver packages safely and carefully using standard box truck.

Tasked with getting to work early to load my own truck.

Worked in all manner of conditions; Ice, snow, and rain in particular.

### Walmart, Traffic Coordinator, Forklift driver, Order-filler, and QA

9/13-10/16

TC: Handle all incoming shipments and invoice freight received, Other tasks include email morning reports and calculate damages and sales

FLD: Restock slots and take inbound freight and replenish racks

O-F: Pick product and build 70 Cubic foot pallets with 99.86% accuracy

QA: Damage out or repackage inventory as well as email damage reports

## EDUCATION

### Haskell Indian Nations University, Lawrence Ks

Fall '09 – Summer '12 3.0 Final GPA
