Work Experience

Setter

Manor Concrete Construction - Maple Grove, MN

August 2019 to Present

A setter builds two sides of a wall so that concrete may be poured in and create the foundation of a building. Responsibilities include:

- Taking measurements and building within tolerance.
- Working efficiently with a group
- Problem solving with critical thinking

Pipefitter

RELCO LLC - Willmar, MN

September 2018 to May 2019

As a welder for Relco, I worked with stainless steel. Producing and maintaining food grade processing equipment.

- Welded products together using blueprints
- Traveled across the nation

Outbound Selector

Sysco - Saint Cloud, MN

June 2017 to July 2018

Gathered and prioritized large quantities of food for schools, hospitals, businesses and army bases.

Moulder Operator

Woodcraft - Saint Cloud, MN

March 2016 to June 2017

Machine large quantities of wood parts within tolerance for various companies.

Bilingual associate

PCI - Saint Cloud, MN

November 2013 to February 2016

Assisted Spanish speaking directors and their colleagues in the creation of accounts.

- Translated text from English to Spanish
- Excellent communication skills

Education

Diploma in Welding and fabrication

St Cloud Technical and Community College - Saint Cloud, MN
January 2018 to August 2018

High school or equivalent
