Professional Summary

I used to work at KeHE distribution as a receiver on night shift on the dry side

I have been out of work for over 6 months now i am ready to get back to working full time im bringing my 120 percent full focus for any task i need to get done or learn .. im ready to start immediately

Work Experience

Warehouse Receiver

KeHE Distributors | Aurora, CO

September 2024 to October 2025

I was a receiver and lumber for the dry side of the warehouse helped with cooler purchase orders as well . I was expected to use a rf scanner to create tags for the product and quantity and make sure it was all there. As a lumber I was responsible for sorting and lumbering out different product and making sure it was on the right pallet orange tags can all go together cs tags can go together if it's going to an r location otherwise if it's an s location it also needs to be on a pallet by itself and pl tags have to go on a pallet by themselves as well.

Machine Operator/Feeder

Publication Printers corp. | Denver, CO

August 2021 to September 2024

I used to work as a feeder at a printing company in a fast paced environment I worked in the bindery department. I made magazines my job was to use the stream feeder to lift logs/bundles of paper off the pallet onto the machine removing any boards or straps that might be in the way . Also requires me to change rail sizes, belts, wheels etc for different size paper and set up the feeders for the next job. I have also been stitcher operator where I ran a one person machine where it required me to set up my trimmer to the correct knife size for the magazine and set up the pockets to proper fitting size depending on the paper set up the stacker to the correct height and width to push the books out in a certain bundle size also have to catch your own books and place them in a box tape them and place on pallet or stack in a pattern without a box. I have also worked in the finishing department and fulfillment and mailing. I had been at my job going on 4 years and I have worked in every department in the warehouse I have tons of experience in manufacturing packaging and operating. I'm a hard worker and a fast learner I'm willing to learn anything.
