## **Machinist**

Westminster, CO 80234

[chavezcesar912@yahoo.com](mailto:chavezcesar912@yahoo.com)

+1 850 851 2864

## Professional Summary

---

I am looking for a position that will challenge me and my problem-solving skills. I hope to utilize my machinist experience as well as my managerial experience to improve or acquire a new skill set.

Authorized to work in the US for any employer

## Work Experience

---

### **CNC Machinist**

Evolve Engineering and Software-Longmont, CO

March 2025 to Present

This prototype machine shop focuses on precision and efficiency to uphold customer satisfaction. Materials milled are Aluminum, Stainless, and Plastics. Tolerances of +- .005 inches are the standard across the shop but also hold +- .001 with some jobs. Worked with HAAS mill machines and used a probing system to ensure fast and accurate setups. Setups ranged between 1-4 operations for small quantities and low scrap yields.

### **CNC Machinist 1**

Metalcraft-Northglenn, CO

November 2021 to March 2024

Worked with Hurco and Mazak CNC machines to produce majority ITAR controlled aerospace parts. Changed tools as needed from normal wear to adhere to in-process checks. Learned to do setups of repeat jobs and new jobs while proofing or making edits to NC code to ensure a safe, quality run. Materials machined were mostly Honeycomb and Aluminum but had some A36 Carbon Steel jobs as well.

### **Assistant Manager**

Dollar General-Panama City, FL

October 2020 to August 2021

Assist the Store Manager with day to day functions as well as manage a team of 3. Open/closed the store and received inventory trucks.

### **Vendor Stocker**

Empire-Panama City, FL

January 2020 to August 2021

Responsible for the stocking of two different stores. Truck shipments varied between 6,000 to 20,000 pounds per delivery 3x per week.

### **Roof Loader**

Coastal Roofing Supply-Panama City, FL

April 2019 to April 2020

Roof Loader supports the driver with deliveries and the branch operations by working in the warehouse. Loaded roofing material onto rooftops with a boom truck conveyor belt and unloaded by hand. Warehouse duties included picking orders with a forklift and pick tickets.

### **Assistant Store Manager**

EzPawn-Lakewood, CO

January 2015 to March 2017

Started as a sales team member, then promoted to Lead Pawn Broker, and on to Assistant Store Manager within 1 year. The assistant was responsible for the team's appropriate lending, training, and managing a team of seven people. The company emphasized customer service and accountability.

### **UV Coating Operator**

Circle Graphics-Longmont, CO

May 2014 to January 2015

This operation requires quick inspection of pictures before and after running through the UV Coating machine, where a thin layer of coating was applied and quickly dried through a UV light. From there, the images were to either be shelved according to priority or cut through a cutting operation. Safety and organization skills were the keys to success.

### **Manufacturing Operator**

RFI Ingredients-Broomfield, CO

December 2013 to May 2014

At RFI, I worked with heavy machinery involving mass amounts of dry organic ingredients to be shipped out and encapsulated into probiotics. Machinery consisted of Blenders, Mill machines, Fermentation tanks and Drum Dryers. Labor intensive and sanitized handling was stressed.

### **Manufacturing Operator B**

Band-It IDEX Inc-Denver, CO

July 2012 to December 2013

I performed general machine operations, material handling, and packaged finished products manually or mechanically. All functions and products must be verified for conformance to specifications of the Quality Control Plan through detailed inspections. My machine varies in set ups and sizes of Clamps that range between 13/16 in. to 4 in. in diameter with three different widths of steel (3/8, 1/2, 5/8). Through this position I developed a basic experience with hand tools and troubleshooting.

## Education

---

### **Applied Science in Solar Technology (Associates Degree (Incomplete))**

Ecotech Institute-Aurora, CO

July 2014 to March 2015
