Work Experience

Driller

Geotek - Stewartville, MN

July 2016 to Present

My job title is "Driller," what that means is that I operate a machine that drills holes out of fiberglass beams. The holes that I drill are according to the specifications that are included in the blueprints with the paperwork for the order. I program the computer on the machine so that it drills the correct sized holes and that they are drilled in the right spot.

Guest Service Co-Worker

Kwik Trip - Stewartville, MN

March 2006 to January 2017

Provide fast, friendly service to the guests that visit our stores and to make sure product is fresh, clean and available.

Other duties included: unloading and putting freight away, making sure the restrooms are clean.

Education

Diploma

Skills

Customer Service, Bookkeeping, Food service, Management, Machine Operator
