Career Objective/Summary

To secure a career in a company that utilizes my talents and skills in the field of factory, construction, assembly and/or heavy equipment operations. Over 20 plus years of customer service related experience, with a strong background in manufacturing and construction. Proven organizational and quality control skills resulting in the ability to take on increased responsibility and meet deadlines in high volume work settings. Adept at building rapport with various levels of customers and business partners and use a tactful, creative, hands-on approach to problem solving. "Big Picture" vision and flexibility to handle ever-changing work environments. Devoted, quick learner, and self-directed team player with a strong work ethic.
