

Charles Clark

Mason/ machinist

Minneapolis, MN

charlesclark588_dnh@indeedemail.com

(612) 804-4819

20 years in building and contract maintenance work. My perfect position will be a hands-on opportunity with equipment and maintenance within a stable, repeatable work day.

Work Experience

Machinist

E&O Plastics - Rogers, MN

2016 to Present

Current responsibilities include operating injection plastic machine. Responsible for handling, inspection and packing of product.

Milling Machine Operator

M&L Industries - Rogers, MN

2014 to 2016

My responsibilities include operating and set-up of lathes and turning centers. This was primarily on Haas equipment machining both aluminum and steel material. I am responsible for my own quality and production goals.

Left due to downsizing.

brick mason

Dowel Masonry/Private Contracting - Crawfordsville, IN

1996 to 2014

Crawfordsville, IN

My position began as a hod carrier and worked up to mason. Typical work included a variety of job sites. In warm weather, I worked as a brick mason. This included work site set-up. In colder weather, I worked on interior projects. This included a wide variety of building and industrial maintenance. This flexibility allowed me to learn a variety of skills.

Education

Crawfordsville High School
