Work Experience

Machinist Operator

Mountain Tech MFG - Colorado Springs, CO
June 2013 to September 2015

Calculate dimensions or tolerances, using instruments such as micrometers or vernier calipers. Machine parts to specifications, using machine tools, such as lathes, milling machines, shapers, or grinders.

- ✓ Set up, adjust, or operate basic or specialized machine tools used to perform precision machining operations.
- ✓ Measure, examine, or test completed units to check for defects and ensure conformance to specifications, using precision instruments, such as micrometers.

Machinist/Apprentice

machines and machining centers - Buena Vista, CO
2010 to 2013

CO

- ✓ Set up & operate a variety of machine tools to produce precision parts & instruments.
- ✓ Includes precision instrument makers who fabricate, modify, or repair mechanical instruments.
- ✓ Sets up & operates conventional, and numerical control (NC) machines and machining centers to fabricate parts, and fits and assembles machined parts into units, applying knowledge of machine shop theory and procedures, shop mathematics, machinability of materials and layout techniques. Studies blueprints, sketches, drawings, manuals, specifications, or sample part to determine dimensions and tolerances of finished work piece, sequence of operations, and setup requirements. Measures, marks and scribes dimensions and reference points on material or work piece as guides for subsequent machining.

Electrical/Plumber Apprentice/Installer

Springtown, TX
2007 to 2009

Assemble, install, test, and maintain electrical or electronic wiring, equipment, appliances, apparatus, and fixtures, using hand tools and power tools.

- ✓ Diagnose malfunctioning systems, apparatus, and components, using test equipment and hand tools, to locate the cause of a breakdown and correct the problem.
- ✓ Connect wires to circuit breakers, transformers, or other component.
