## Professional Summary

---

I'm smart, I'm talented a hard worker, I'm dedicated and always have a positive attitude love meeting new people and working around new people. I love learning new things there's never something you can't not learn! I've welded pretty much my whole life starting throughout high school, got my first welding job at the age of 17 and started picking up with cars from a buddy fell in love with both but I've done some other jobs as well but I love being in factory's. I like getting my hands dirty!

Authorized to work in the US for any employer

## Work Experience

---

### **Machine Operator**

Strongwell-Chatfield, MN

February 2024 to Present

I do multiple things such as run the machine changing fiberglass baies rovings and watching the machine making sure it runs properly, otherwise I catch the parts it makes/cuts and put them on a pallet and send them out the door. They mainly make stuff for tools such as handles for shovels and many other things.

### **Oil Change Technician**

Take 5 Oil Change-Rochester, MN

November 2023 to January 2024

I started off just shadowing people learning call outs and doing things such as topping off fluids, doing coolant changes top sided oil filters and so on, then learned the pit on doing the actual oil changes and did that repeated!

### **Drive train Technician**

Zumbrota Drivetrain-Zumbrota, MN

January 2022 to October 2023

Tore down transmissions, transfer cases, transmissions etc. cleaned all the parts and if you had too put new parts in replaced any broken pieces and rebuilt them and sent them out the door

### **Welder/Fabricator**

Briese Iron Works-Minnesota

February 2021 to January 2022

Welded and grinded railings flush. Made railings stairs and many other things mainly for schools.

### **Welder/Fabricator/Assembler**

McNeilus Truck and Manufacturing-Dodge Center, MN

June 2020 to September 2021

Worked on the box line welding all the big garbage trucks, many different stations. Doing multiple different welds such as vertical ups verticals down overheads and many others. Also put together the actual boxes with hydraulic hoses screws lights and many other things

## **Welder/Fabricator**

EZ Fabricating-Chatfield, MN

June 2019 to June 2020

Just basic welding small things like wheel brackets and tire mud flap frames

## Education

---
