EXPERIENCE

- 2015 **Park Aide, *Riverside State Park (WA state)***
As a Park Aide, I completed tasks ranging from sanitary/janitorial services, mowing, weed whacking, providing campers with State Park information and resources, selling state park passes, renting out equipment, and taking camp reservations both online and over the phone.
- 2016 **Shellfish Farmer, *Taylor Shellfish Farms (WA state)***
As a Shellfish Farmer, I harvested and seeded clams, oysters, and geoducks. I learned the value of true teamwork and safety, while having to work on and around heavy machinery. I was able to experience split work hours and flexible work schedules, as our hours would vary due to the tide.
- 2016-2018 **Thermal Operator // Shipping Attendant, *MAAX Corp USA (WA state)***
As a Thermal Operator, I learned to uphold safe working conditions and pertinent time management. I operated forklifts to fit bathtub molds inside of air-pressure controlled racks, used to cook, and form acrylic inside of a large manufacturing oven. After 4 months, I became a Shipping Attendant, learning inventory placement and preparing order shipments.
- 2018-2019 **Lead Budtender, *2020 Solutions (WA state)***
As a budtender, I developed strong customer service and communication skills. Within 7 months of working with 2020 Solutions, I became a lead and was responsible for keeping track of inventory, organizing stock and display shelves, helping with intake of orders, and properly closing the store.
- 2019-2021 **Residential Counselor, *Opportunity Council (WA state)***
As a Residential Counselor, I assisted 40 clients living in a supportive housing facility, with a special emphasis on challenges related to severe and persistent mental illness and substance use disorders. I was responsible for daily crisis management, consistent communication with law enforcement/emergency services, tenant relationship management, and building operations.
- 2022 (March-Sep) **Budtender, *Higher Grade Recreational (Denver, CO)***
At Higher Grade, I learned new state laws, rules, and regulations as a budtender. I learned to adapt to a completely new environment, memorizing new products, procedures, and orders of operations, furthering my knowledge in the industry.
- Nov 2022-Sep 2023 **Budtender, *Verts Neighborhood Dispensary (Fort Collins, CO)***
Working at Verts, I served both recreational customers and medical patients. I learned a new P.O.S system, how to function efficiently with a new setup and team, and how to professionally approach conversations about medical cannabis.
