CAREER GOALS:

Having over twenty years of experience in Product / Materials Management I would like to continue my career in the Supply Chain and Operations Management field.

QUALIFICATIONS:

Working over ten years supporting a Thin Film Component division from manufacturing to materials planning and scheduling. I supported various new product introduction (NPI) teams from prototype to full volume manufacturing. Continuing my career path in Supply Chain Management for over five years supporting Printed Circuit Assembly (PCA) card NPI / Manufacturing. I am currently the Materials Planner for Commercial Space Exploration dedicated to Dream Chaser Space Vehicle Materials planning and integration.

- ◆ Primary contact for customers, vendors and subcontractors
- ◆ Product configuration management (CM)
- ◆ MRP/ERP tracking systems –SAP, Deltek, Oracle
- ◆ Program / Project Management Process
- ◆ Main point of contact for Manufacturing and Engineering
- ◆ Lean Manufacturing, KANBAN Utilization

EMPLOYMENT HISTORY:

Sierra Nevada Corp.

07/11 – 6/19

POSITION: Planner Sr. – Space Exploration and Development

RESPONSIBILITIES:

Lead Planner for Dream Chaser Space Vehicle Program CCDev2, CCIcap and CRS2

- ❖ Material and schedule requirement analyses.
- ❖ Initial quote and procurement process following Federal Government Compliance guidelines.
- ❖ Engaged with Design Engineering and Program Management supporting all materials functions
- ❖ ECO/ECN change management approval and implementation.
- ❖ Overall Space Vehicle program support from design through integration
- ❖ Main Point of contact for all materials and material planning functions associated with Dream Chaser through CCDev2, CCIcap. and CRS2

RF Micro Devices

11/09 – 07/11

POSITION: Engineering Technician – Prototype / Manufacturing and Process development

RESPONSIBILITIES:

Develop and improve processes for Micro Device assembly

- ❖ Engineering technician for Palomar 3500 III pick and place equipment.
- ❖ Develop and refine Eutectic/Epoxy attached Die to package process.
- ❖ Operate X-Ray equipment, analyze results for quality and process stability.
- ❖ Review processes to achieve maximum efficiency and quality - prototype to volume manufacturing.

ABRA Auto Body and Glass/ Global Collision

11/17/03 – 07/18/08

POSITION: Parts Manager/Purchasing – Supply Chain

RESPONSIBILITIES:

Oversee and Manage all parts issues relating to repairing and delivering fully repaired vehicles.

- ❖ Purchase, Receive and Invoice all parts necessary to start and complete vehicle repair.
- ❖ Leverage buying power to get best possible parts pricing, and delivery.
- ❖ Communicate with customers, team members and vendors about parts issues.

StorageTek

12/97 – 1/17/03

POSITION: Material Coordinator, Sr. – Electronic & Finished Goods Planning/Purchasing

RESPONSIBILITIES:

Coordinate Printed Circuit Card Material / Assemblies for STK New Product Introduction to Full Production

- ❖ Forecast, Plan and Schedule PCA and materials from Prototype to full Volume card MFG.

- ❖ Only point of contact coordinating manufacturing, engineering, design, and materials. Communicating and resolving issues that impact all team members and customers.
- ❖ Engage and participate in material usage and forecasting to leverage purchasing power.
- ❖ Verify Bill Of Materials (BOM) for all PCA cards prior to production release
- ❖ Record and present vendor performance matrix. Communicate possible issues impacting success
- ❖ Forecast, schedule and track PCA card configurations to suit customer requirements.
- ❖ Transfer of PCA build to full manufacturing line in Puerto Rico and/or Contract Manufacturer
- ❖ Travel domestically and internationally training and supporting teams to insure success.

EMPLOYMENT HISTORY CONT

Quantum / StorageTek

4/88 – 11/97

POSITION: Planner / Scheduler III – Materials Planner

RESPONSIBILITIES:

- Planner for Thin Film Head Gimble Sub-assembly Mfg. Line in Louisville, Co.
 Coordinator for World Wide Raw Piece Parts for Sub-assembly lines in Louisville, Co. Batam, Indonesia, and Shrewsbury, Mass.
- ❖ Master Schedule all builds in Louisville, Co. HGA Manufacturing
 - ❖ Start, track and follow all builds through start to completion of HGA in Louisville, Co.
 - ❖ Analyze and forecast inventory needs to complete all builds in HGA Mfg. World Wide
 - ❖ Key member of all New Product teams analyzing resources and materials needed for successful completion of products from prototyping to transfer of offshore for full volume production
 - ❖ Monitor, track, and analyze inventory levels, yields and completions through HGA in Louisville, Co.
 - ❖ Coordinate and track starts, inventory, completions and ships for six-inch thin film wafer manufacturing
 - ❖ Travel domestically and internationally training and supporting teams to insure success

POSITION: Machinist -V / Line Lead for Thin Film Head Division

RESPONSIBILITIES:

Operating machinery in Thin Film Tape and Thin Film Slider Fabrication manufacturing
 Supervise manufacturing to meet production schedules and requirements

Additional Information:

General added Supply Chain Management experience:

- ❖ Manufacturing multiple process inventory tracking systems–SAP, Insight, Seritrack, SIMS, MPIS
- ❖ Developmental engineering, new product introduction (NPI) materials support
- ❖ End of Life (EOL) material scheduling and purchase planning
- ❖ Oversees or Contract manufacturing material Planning, transfer, and scheduling
- ❖ Purchasing and managing purchases of new vendor development parts, long lead material / parts, complex material / parts and Sub-assemblies
- ❖ Import, Export ,International and Domestic federal shipping and receiving laws
- ❖ Just In Time manufacturing (JIT), Inventory Planning, Forecasting through repeatability by automated manufacturing

Certificates, Classes and Seminars:

- ❖ High School Diploma from Arvada West – 1984
- ❖ City and County of Denver Merchant Guard license – Exp. Date 4/2010
- ❖ Completed Management Candidate Program (MCAP) 1992 – StorageTeK
- ❖ Situational Leadership 1 & 2
- ❖ Team Leadership skills
- ❖ Effective Presentation Skills
- ❖ S.P.C. Applications
- ❖ Conflict Management
- ❖ Leading Through Change
- ❖ 7 Basic Habits of Highly Effective People

❖ Improve Profits and Reduce Cycle Time with Manufacturing Cells and Simulation
