Professional Summary

Dynamic production leader with 9+ years of manufacturing expertise. Experienced in operating press brake machinery, reading blueprints, and quality inspection. Proficient in CNC programming, tooling, and precision measuring instruments. Demonstrates strong production management skills and a commitment to continuous improvement, ensuring efficient production runs and adherence to quality standards.

Work Experience

Production Manager

Nemesis Industries | Kiowa, CO

November 2016 to Present

- Operated Accurpress Press brake to form precision sheet metal parts, ensuring adherence to quality standards and production schedules
- Utilized calipers and precision measuring instruments to verify part quality and maintain tight tolerances
- Interpreted complex blueprints and drawings to create nests of parts and plan production runs
- Managed material ordering and production workflow to meet demanding schedules and optimize efficiency
- Operated Waterjet, milling machine, Time saver sanding machine, and various hand tools to support manufacturing processes

Education

High school diploma

Elizabeth High School | Elizabeth, CO

September 2008 to June 2012
