## Work Experience

---

### **Quality Inspector, Repair Specialist, Production Worker**

Vestas Blades Windsor - Windsor, CO

June 2014 to Present

- Oversaw manufacture of hundreds of blades for wind turbines, worth ~\$250,000 each in materials, ensuring final products were built to quality standards while following production work instructions.
- Spent 3 months in 2016 training future trainer from India, one-on-one, in all aspects of quality and repairs.
- In March and May of 2017 travelled to India as a QI for total of 8 weeks to advise and guide over 50 people This is an estimate, is it obvious or does that matter?  
in Shells department, including production management, quality techs and engineers, trainers and their trainees towards the opening of a new factory.
- As repair specialist, repaired over 100 manufacturing defects to bring blades within specification.
- Primarily work independently, with little oversight, daily. Often worked on teams of 6-12.
- Followed safety practices - often working at awkward positions - and encouraged others to do so as well. Currently 100+ days with zero lost time injuries.
- Constantly learned and adapted to new production guidelines.

### **Courtesy Clerk, Butcher Block**

King Soopers - Greeley, CO

April 2012 to May 2014

- Primarily worked in Meat Department, focusing on excellent customer service and driving sales.
- Passed interview to enter pool for Assistant Meat Manager in October 2013.
- Overall Customer Satisfaction, Friendliness, and Freshness scores were top 10 scores in the district, of over 250 stores, in 2014.
- Adopted safe working practices and emphasized its significance while training others; 300+ accident-free days.
