WORK EXPERIENCE

cnc machinist

thomas ind - Wabasha, MN - February 2016 to Present

Measured and marked dimensions and reference points accurately. Measured instruments to verify compliance with precise specifications. Maintained logs, lists and files and promptly completed all necessary paperwork. Operation of an Amada fiber laser machine.

print screener

wincraft - Winona, MN - April 2015 to January 2016

Reduced downtime during production by maintaining equipment and reducing unnecessary maintenance. Reviewed work orders and communicated with prior shift to assess work needs for the day. Verified that machine setups conformed to specs. Managed work with little supervision. Notified supervisors of faulty operations and defective materials

cnc machinist

federal mogel - lakecity - August 2012 to October 2014

Measured and marked dimensions and reference points accurately. Measured instruments to verify compliance with precise specifications. Dismantled and inspected components and adjusted and repaired them as necessary. Measured, marked and indicated proper dimensions and reference points on materials and work pieces for future reference. Calculated and set controls to regulate machining factors like part speed, feed, coolant flow, depth and angle of cut and clamping methods. Machined small and large parts to tolerances of 1000ths of an inch or less. Made appropriate offset corrections for tool wear, broken tools and casting variations. Selected appropriate speeds and feeds according to type of metal and finish specifications. Gauged and maintained tolerances on grinding diameters, depths, squareness and parallelism. Followed casting contour and avoided undercutting and removal of surfaces. Maintained logs, lists and files and promptly completed all necessary paperwork. Operated 3 CNC lathes and Hone simultaneously in one work

furniture assembler

ashley furniture - Arcadia, CA - February 2011 to August 2012

Successfully led a team of 12 team members. Set up and performed hand and automatic assembly operations on components, sub-assemblies and assemblies. Assembled components with hand and power tools. Assessed work for errors or compliance issues and made corrections and modifications when necessary. Cleaned and finished sub-assemblies and assemblies using hand or power tools. Performed and submitted first piece for inspection. Lubricated and wiped machines, tools and workplace to maintain safety and cleanliness. Certified and skilled forklift operator. Improved knowledge and productivity through continuous education and learning from foreman and senior assemblers. Completed and entered quality records, scrap reports and machine logs in a timely manner. Reviewed and verified all work was in compliance with sales orders and customer requirements. Determine materials, tools and equipment needed for product orders.

truss assembler/truck loader

midwest manufacturing - Eau Claire, WI - January 2002 to February 2011

Unloaded incoming inventory. Worked overtime, including evenings and weekends. Managed work with little supervision. Picked, packed, received, and restocked products with forklift and lift truck. Assembled building material components, including roof and floor trusses. Interpreted prints, drawings and sketches. Assembled components with hand and power tools. Assessed work for errors or compliance issues and made corrections and modifications when necessary. Cleaned and finished sub-assemblies or assemblies using hand or power tools. Performed and submitted first piece for inspection. Certified and skilled forklift operator. Inserted and positioned materials and clamped, spliced and fitted parts using hand and power tools. Completed and entered quality records, scrap reports and machine logs in a timely manner. Reviewed and verified all work was in compliance with sales orders and prioritized jobs.
