

CODY BROUHARD

Platteville, CO 80651 | 9709390730 | codybrohard2001@gamil.com

Summary

Detail-oriented welder skilled in TIG and pipe welding. Proven ability in equipment maintenance and safety compliance, contributing to high-quality standards and efficient operations. Proficient in reading WPS worksheets, Osha certified, I'm more proficient at Tig welding I am able to Mig weld very well. Proficient welding professional with expertise in aluminum and stainless steel welding. Recognized for strong troubleshooting abilities and training skills, committed to driving safety and quality in all operations.

Skills

- Welding techniques
- Gas tungsten arc welding
- Stick welding
- Aluminum welding
- Carbon steel welding
- Pipe welding
- Joint preparation
- Plasma cutting
- Grinding and finishing
- Component assembly
- Equipment maintenance
- AWS D1.1 structural welding code
- Safety compliance
- Fire prevention and protection
- Hand tool safety
- Equipment management
- Grinders
- Welding techniques
- TIG welding
- Gas metal arc welding
- Flux-cored arc welding
- Stainless steel welding
- Titanium welding
- Welding procedure verification
- Welding positioning
- Plasma arc cutting
- Fabrication
- Welding equipment maintenance
- Troubleshooting skills
- ASME boiler and pressure vessel code
- Lockout and tagout procedures
- Power tool safety
- Welding symbols
- Welder qualification test
- Oxy-fuel welding

Experience

CNC Machine Operator

Cleyens

08/2025 to Current

Loveland, Colorado

- Operated CNC machines to produce high-quality components for various applications.
- Collaborated with team to troubleshoot and resolve machine issues, ensuring minimal downtime.
- Trained new operators on safe machine operation and best practices, enhancing team competency and safety compliance.
- Inspected parts for conformance to specifications using precision measuring instruments, maintaining high quality standards.

package handler

fedex

12/2020 to 08/2025

Johnstown, Colorado

- Sorted packages to ensure timely distribution and accurate delivery.
- Operated conveyor systems for smooth transportation of items within facility.
- Loaded and unloaded freight from delivery vehicles to maintain workflow and safety.

Education and Training

Associate of Applied Science: Welding And Fabrication**Expected in 05/2026**

Aims Community College

Fort Lupton, CO

- The D11 welders training course produced by Jesse Grantham.
- Arc welding, stick welding, Tig welding, Etc.
- reading and understanding WPS

Certifications & Licenses

Pipe welding- Colorado state issued

Arc welding processes- Colorado state issued

Metal cutting and Gouging- Colorado state issued

Tugger operations-Fedex issued

Welding certificate- Aims community issued

Osha 10 certification
