-

LEADERSHIP

I have prior experience in managing a warehouse of three people. I ensure my daily work and the daily work of my co-workers is done before all else. I've shown what I am capable of accomplishing tasks when given a task by any member of the management team. I've worked directly with management to accomplish small projects my last ten months with Lineage. I've proven to be a key team member in day to day operations.

- Order Selector
- Forklift Operator
- Welder
- Wall Production
- Wall Stripping (Taking Apart Finished Concrete Pieces)

Misc.

WHY I FEEL QUALIFIED

As I've stated before I have prior experience in both leadership and management positions. I feel that I can add value to our already great group of people here at Lineage. By receiving this opportunity I'd lead my team to a better productivity standard and raise moral. I'd bring day to day issues to management to ensure and quick and easy solution by having a small pow wow at the end of each day. Each working day as of now consists of me stepping up to where I'm needed the most. Most Mondays I'm down on southside helping pull exports in the early mornings and the large New Mexico orders in the afternoon. Throughout the week I am seen by many working safely and efficiently and would like the opportunity to teach everyone to ensure productivity standards rise according to an ever growing business. I thank you for the opportunity.
