Exhibit B
ESSG Customer Safety Partnership

ESSG places a strong emphasis on the safety of ESSG workers and ensuring they are afforded a hazard free work environment at all times. This commitment to safety allows us to provide the best possible service to each client at a reasonable cost.

Throughout many industries, the cost of workers' compensation insurance is rapidly increasing. There are many factors contributing to these high costs, some of which we cannot directly control, but others we can.

ESSG's goal is to establish a partnership with each client to reduce and/or eliminate any unnecessary injuries and lost-time accidents caused by carelessness or an unsafe work environment. **In accordance with OSHA 300 log compliance, our clients recognize their responsibility in keeping these logs as the host employer and will partner with ESSG to report these recordable incidents in a timely manner to CMG and/or the ESSG Work Comp Department.**

We would like to foster a mutual partnership and understanding of the following safety and on-the-job injury procedures, practices and philosophies:

- Unless the client has obtained prior written consent from ESSG, the client agrees that all ESSG employees will only perform the job activity assigned without deviation from that assignment and will not be asked to perform any activity that has not been previously agreed upon. Any variance from that agreed upon assignment must be reported to ESSG before work begins.
- It is important to have an understanding of your operations in order to provide workers who meet your standards. This includes the physical abilities to fulfill the essential job functions as well as the skill sets that are consistent with your operations.
- ESSG employees will be provided proper safety orientation training in all safety, hazardous communication and operational instructions in the same manner as any of your direct employees.
- ESSG employees will be provided and required to wear all appropriate Personal Protective Equipment (PPE) at all times.
- Client agrees to notify CMG and/or ESSG as soon as possible following the event of an accident or injury of one of ESSG employees.
- Client agrees to adhere to ESSG's Substance Abuse Policy, and notify ESSG in the event of any employee acting intoxicated or in a suspicious manner.
- ESSG employees will be allowed to participate in a Light Duty work program if one is in place for direct employees.
- Client agrees to implement and follow all aspects of ESSG Safety Policies and Procedures.

These areas of agreement are intended to insure a safe and productive partnership and reduce your liability to a minimum. In the event that an accident does occur, Client should contact CMG and/or the WC Department to obtain the required documentation.
