Professional Summary

I hold myself to a very high standard, often times beating myself up after work, if I make any kind of mistake.

I honor and respect clients homes and equipment!

not afraid of dogs lol,

most importantly I have plenty of knowledge and skill, this does not mean I'm not willing to listen and learn the way your company runs and how you do things. I'm always looking to save my body and hours in a day learning new ways to accomplish a task

Willing to relocate to: Colorado - Broomfield County, CO

Work Experience

Maintenance/plumber/hvac technician

Terravita Apartments-Broomfield, CO
February 2023 to Present

This place is a big waterpark, popping 3 inch sprinkler lines and ceilings and walls of units. Outdoor water heater closets made Cpvc no insulation, Aquatore in the ceilings and walls boilers in the lofts. I have to take care of all of it. No one else here knows any thing to do with it just not challenging enough for me. I need more money and more challenge in my life

HVAC Technician

Copper , mechanical-Denver, CO
June 2018 to Present

Our whole crew left Peak mechanical and started copper mechanical it is still a thriving company I am just looking to move out of state this company is where I'm at Darla Scott who taught me everything I know about boilers.

HVAC Technician

Master Rooter Plumbing-Denver, CO
June 2020 to June 2022

diagnostics and repairscheduling and parts orderingbudget

HVAC Technician

PEAK MECHANICAL-Denver, CO
June 2017 to June 2018

I started tearing apart all kinds of boilers and removing them to prep for new installation, I quickly moved into my own van in less than 4 months from there I learned very quickly I have several certification including my universal EPA in Denver co I can easily obtain it as well in NM.

Education

11th Grade Education in Myself, the best thing to master is how to maintain yourself and piece of mind.

Vantage Point - Thornton, CO

January 1990 to January 2004
