

CORY FROYUM

2460 Bayberry Ave Stillwater MN, 55082 · 763-354-0448
Cory.Froyum@Gmail.Com

I am looking for a challenging environment that will allow me to utilize my education and skills in six sigma and project management to make an impact in an organization. My career goals are to rise to a Director Level position leading a technology focused group.

EXPERIENCE

OCT 2014 - PRESENT

ENGINE AIR LAB SUPERVISOR, DONALDSON CO

I am responsible for managing the daily operation of the Engine Air laboratory along with providing coaching, mentoring, and leadership to 12 technicians on multiple shifts. I oversee strategic initiatives and projects for the whole of corporate technology relating to six sigma and statistical analysis and am the technical expert for all engine air filtration testing. Along with these responsibilities I manage a budget of 1.8 million and oversee the budget rollup for multiple labs equaling 12 million.

OCT 2009 - OCT 2014

ENGINE AIR LAB TECHNICIAN I-SENIOR TECH, DONALDSON CO

During this time, I was advancing from an entry level technician to a senior technician and was the labs lead technician for both 1st and 2nd shift and became the technical expert for all testing. I rebuilt the test lab based on a data analysis project I initiated and lead to prove the quality of all test benches.

JUNE 2004-OCT 2009

**HEAVY TRUCK DIESEL MECHANIC, ALLIED WASTE/VEOLIA
WASTER SERVICE**

I worked as an ASE certified heavy truck mechanic. I quickly rose to a tech 4 which was the highest mechanic level meaning I was responsible for all difficult and large repairs.

EDUCATION

JAN 2019

MASTERS OF MANAGMENT, UOP
