Summary

I have worked production working in all different environment and working with my hands. I have been working on a university degree that is not far from completion. Self-motivated, hardworking and dependable as that's what it takes to run your own small business just lacking the benefits and that is the reason for applying for this job. With everything I have been doing through the years has improved my communication skills and work ethic to maximize time management. I would prefer to work a steady shift rather than the rotation shift if possible.

SELF MODATIVE

- Coordinated production area, keeping everything working properly, maintained a clean work area for safety, adjusted increase production.
- Communication, customer service, daily lodges, increase quality, quantity, samples for quality control, and handled chemicals.
- Maintained equipment, increase production with minimum down time, adjusted, and fixed production issues.
- Minor maintenance, part catalogs, computers, team player, self-motivated answering phones.
- Have and can operate, forklifts, front end loaders, skid steers, dump trucks, man lifts, JLG, and back hoe.
- Warehouse work, inventory, pulling and stocking shelves, inventory, selling parts, shipping and receiving, confirmed delivery status, order parts, merchandise pro, communicated with employee on status.
- Computers and Microsoft office Knowledge, team player, self-motivated, team player.
- On line sales, In house sales, direct sales
- Advertisements, creativity.
- Communication
- Reported any problems to the proper person, in charge of safety meetings, filled out forms and input into computer daily.
- Informed maintenance of production problems that could cause down time.

Education

Davis High School

1991-1994

Weber State University

2005-2013

Employment History

Young Chevrolet

Parts delivery

Layton, Utah

June 1994 - January 1995

Delivered parts, pulled parts and handled returns from customers.

GSL

Operator

October 1996 - February 2002

I worked one year in the warehouse then transferred to SOP plant for more chances of advancement. In charge of running different areas in the plant and did maintenance during summer shut down. I operated heavy equipment from front end loaders, skid steers, forklifts, dump trucks, and JLG's. Worked a 12-hour rotating shift from days to graves every month. Plus, would run a safety meeting in rotation and attended them weekly.

Weber State University

Student

Ogden, Utah

January 2005 - January 2013

Self employed

eCommerce

January 2012 - Present

I have been running a store on eBay doing buying in bulk and posting items for sale at retail. Plus doing shipping and receiving and running my web-page.

MAU at **Kimberly** **Clark**
Forklift
January 2019-May 2019

I supply the production lines with raw products and move the finish product to the correct area using the computer system. Manage inventory by scanning and computer input to keep counts current and correct. Its currently a 12-rotation shift 3 days on days, 3 days off, then 3 days on graves with mandatory overtime.

Autoliv
June 2019-October 2019

I did production on the line for the airbags of Telsa 3. Manage inventory by scanning and computer input to keep counts current and correct. I had to leave this job to have surgery on my hand since it was a preexisting condition.

Lifetime
December 2019-January 2020

I drove forklift to supply the production lines with raw products and move the finish product to the correct locations. Loaded and unloaded semi-trailers along with keeping records of everything for inventory. Its was an 8 hour shift on swing shift with mandatory overtime. I would work around 60 plus hours a week the entire time I was there. I never missed a day and was never late however I resigned do to the reason that they wanted me to do unsafe work to others with me being on the forklift and I wouldn't do it because I believe safety should be top priority to all.
