WORK EXPERIENCE

Quality Control Inspector

Elkhart Plastics - Littleton, CO -

September 2017 to Present

Job requires me to test walk thickness,color,weight,balance and over all quality of Murray products as they are made. I enter all info into data collectors then band up and get product ready to ship. I do all material handling for the this product and load all semis for delivery.

All Odd Jobs

Self employed - Golden, CO -

January 2017 to Present

Jobs vary from moving, painting,cleanup,removal of various materials,home maintaince etc. Basically any smaller job that someone needs done.

Onsite Manager

All in One Staffing - Las Vegas, NV -

January 2014 to October 2016

While working for All in One Staffing I was the Onsite manager for a rental car company at McCarran International airport. Shifts were 7 days a week 365 days a year. I had washbay crews as well as transport crews to move cars between lots. Had to make sure we cleaned 500-700 cars a day depending on the return volume as well as 40-60 an hour depending on customer demands, do all quality control checks, made sure the right cars were cleaned and moved to fill reservations. Maintained all washbay equipment, did scheduling for 50-60 workers as well as hiring,dismissal, promoting and customer service.

Observer/Party Manager

Eagle Exploration - Acme, MI -

April 2010 to January 2014

While working for Eagle is was the Observer/Party Manager of a seismic exploration crew. This intailed getting the creed from site to site all across the country. I ran a computer recording system that took images of the formations under the surface. I had crews of 15-20 people who would lay out cables and geophones/sensors over a 5-10 square mile area. I ran all aspects of the operation from booking hotels, setting up accounts, all

logistics of getting the crew from point A to B and dealing with clients and land owners. We worked 7 days a week 14-16 hours a day.

Production Worker

Dakota Panel - Traverse City, MI -

October 2007 to March 2010

While working for Dakota Panel I was a production worker for a wood and shelving company that produced product for various types of wood shelving and trim. Ran various cutting, packaging and banding machines. Also filled orders and ran forklifts.

Laborer/Operator

Harmon Construction - Rapid City, SD -

May 2004 to October 2007

Started as a laborer doing various residential and commercial utilities. Replaced sewer, water and storm drains. Started running various heavy equipment including bobcats, front loaders, forklifts, rollers and small excavators. During the winters we did metal and wood framing inside warehouses and Sheetrock work.
