I'm a healthy, mature and reliable 32 year old with 9+ years of experience over the road and local driving. I've hauled just about everything and learned to safely secure and transport merchandise in a efficient, punctual manner in accordance with all state laws and safety regulations. Also know how to unload my self safely with different types of forklifts that mount on to flatbeds. I've learned to take my time but always deliver on time if not early. Communication is part of the job and I always try to relate any delays, problems or accidents as soon as possible. I'm searching for employment somewhere that values, respects and cares for their drivers so I can work my 25+ years and retire.
