Denver, CO 80239

cristopherllamas12@gmail.com

+1 720 492 9173

Authorized to work in the US for any employer

Work Experience

CoOwner

Unknown performance - Peyton, CO

July 2021 to December 2021

Managed the company with my business partner. Fabricated and welded turbo systems for the majority but did custom work as request by customers (air to air kits on supercharger/ oil catch cans/exhaust/ headers) I built our website from scratch myself and social medias.

Aluminum Tig Welder

Innovation Manufacturing - Denver, CO

February 2021 to July 2021

At innovation manufacturing our main goal is to pump out productions numbers. I weld a variety of aluminum ramps based on orders (most common ramps are 23"x42") ramps can get as long as 72", I also tig weld skylights which is thin gauged aluminum. Ramps and skylights are all pre assembled tacked and welded 100%. I was Night shift team leader, my duties were reading the orders for the day and getting it complete by the end of the day with my team. taught new hires how to assemble and weld our product. Filled out paper work when orders were complete.

Education
