Work Experience

Aviation Resource Management

Air National Guard - Saint Paul, MN

October 2018 to Present

Responsible for ensuring the coordination of aircraft and crew, Aviation Resource Management specialists make sure that missions run as smoothly as possible. From maintaining flight records to validating aircrew safety requirements, these managers make sure everything and everyone is ready to go and where they need to be so missions can be carried out according to plan.

Education

Some college in Aviation resource management

Community college of the Air Force - Biloxi, MS

August 2018 to October 2018

Skills

Human Resource
