OBJECTIVE

- To obtain a position that will allow me to showcase my skills and help a company grow and succeed

SKILLS

- Unique blend of management skills running the gamut from office starter to IT/development manager
- Fast learner, dedicated, quickly earned trust of colleagues and clients as someone who gets the job done
- Rise to the top in short order no matter what my profession
- Problem solver, will not rest until the client is satisfied, no matter what it takes

EXPERIENCE

Chief Technology Officer (current title)

2/2007-present

JJL Process Corporation

- Rapidly rose to rank of data entry manager in charge of a crew of approximately 15
- From there was put in charge of three regional offices less than 2 years after starting (Tampa, Orlando, and Jacksonville FL)
- Rescued Jacksonville FL office from brink of closing
- Started Denver CO and Orlando FL offices
- Frequently asked to travel to other offices to consult and "cleanup"
- Currently, in charge of IT/development department
- Involved in all stages of project management from brainstorming and supervision of programming work to testing, execution, and training
- Responsible for training clients, vendors, and users on web based software and mobile app (iPhone/Android)
- Extensive experience in dealing with clients, handling problems, and making decisions on the fly
- Helped grow company's volume approximately 10 fold, expand nationwide, and grow from 7 employees to approximately 120
- Trusted by clients and employees alike as someone who would listen and resolve their issues expeditiously

Instructor

1/2007-12/2007

The Princeton Review

- Responsible for tutoring multiple SAT classes in multiple cities
- Entrusted with several one-on-one tutorials shortly after starting
- Helped students post large score gains
- Praised by office staff and school staff for being easy and rewarding to work with

Graduate Student

8/2003-12/2006

University of Miami Biochemistry and Molecular Biology, Miami, FL

- Three and a half years of experience in U of Miami Ph.D program
- Published paper in *Journal of Biological Chemistry* (second author)
- Won Betty Schultz prize 2006 (best oral presentation at retreat)

EDUCATION

Bachelor of Science in Biochemistry and Molecular Biology

University of Miami, Coral Gables, FL

5/2003

- Gained valuable laboratory and life experience
- Graduated with honors
- Member of President's and Provost's honor roll, and Dean's List
