Work Experience

Inventory specialist forklift operator

Csmbakery Supply - Tucker, GA

March 2015 to Present

My position is called a inventory specialist at csmbakery putting away finish product checking the sap system and seeing is any mixtrax in the warehouse free replenishing product into the racks unloading and loading trucks operating a sit-down or a stand-up forklift and a reach truck pulling orders for customer

Warehouse Coating Operator

Manpower - Dayton, OH

2015 to 2015

to 2015

Replaced damaged and worn equipment parts. Screwed parts and assemblies into position. Used a computer USB to install programming

Molding Technician Team Leader

Vandalia, OH

2009 to 2014

Positioned, aligned, and secured assembled mold, mold components, and machine accessories onto machine press bed, and attached connecting lines. Installed dies onto machine and press and coated dies with parting agent, according to work order specifications. Pressed button and pulled lever to activate machine to inject dies and compress compounds to form and cure specified products. Observed and adjusted machine set up and operations to eliminate production of defective parts and products. Weighed premixed compounds and dumped compound into die well and filled hoppers of machines that automatically supply compound to die. Set machine controls to regulate molding temperature, volume, pressure, and time, according to knowledge of plastics and molding procedures. Trimmed excess material from part, using knife, and ground scrap plastic into powder for reuse. Responsible for relieving staff for breaks and managing the molding department.
