Work Experience

Order Picker/Stower

Amazon Warehouse-Aurora, CO

November 2022 to Present

As a stower, I drive an order picker throughout the warehouse and stock items into open bins. I also use a scanner to complete all stowing tasks. As a picker, I drive an order picker and pick items from bins into a carts for customer orders. Using a scanner to complete all picks, I then drive the carts over to the pack department and start the process over.

Journeyman Baker

King Soopers-Denver, CO

April 2005 to Present

As a baker, it is my responsibility to get the freezer load every morning and break it down according to baker's product, cake decorator's product and computer assisted order products (everything that doesn't require prep and goes straight to the salesfloor). Using a Zebra scanner, I generate a daily production sheet that guides me with what products to produce and the quantities. I bake many of the breads, rolls, pastries and other perishables for daily sales. During my 18 years with King Soopers I have also held the roles of assistant bakery manager as well as bakery manager.
