

- I will set an alarm early enough so I can meet my work hours.
- I will leave home early so I arrive at work on time.
- I will get my house duties done on time so I get to work early.
- I will make sure people I live with remind me, when its time for me to go to work.
- I will remind myself from time to time the necessity to get to work early and the consequences I will face if I don't make it to work early.
- I will take work <sup>more</sup> serious than I did ~~be~~ before, so I will be more pronto to work than usual.

Daniel
