EXPERIENCE

Inventory Clerk Lead | Spyderco

Golden, CO | January 2024 - February 2026

In charge of supplying the Assembly department with work while maintaining an organized and accurate inventory of all small parts needed to produce Spyderco products. Additionally assisted in scheduling other departments to ensure the needed materials for the required products would arrive on time.

CAD/CAM Operator | Vitality Dental Arts

Westminster, CO | August 2023 - December 2023

Utilize CAD software to design molars and bridges for dental cases. Responsible for ensuring material is placed on mills and cases were cut out based on the design given.

Further responsible for sanding molars and bridges to remove any excess material after they're removed from the mills.

Terminal Clerk III | Estes Express Lines

Aurora, CO | December 2022 - August 2023

In charge of dock workflow by ensuring incoming freight is properly directed around the facility. This included several applications to be able to identify important shipments, direct the movement of trailers, and assign work to dock workers to ensure freight is moved to the proper trailers.

Additionally trained in reading and repairing shipment bills that did not have an automatic trailer assignment.

Sales Associate | Lowes

Westminster, CO | November 2021 - December 2022

Tasked with keeping shelves organized, sorting new inventory from receiving into stock, as well as providing excellent customer service.

Pike Engineering, Longwood FL

GIS QC | August 2019 - January 2021

Quality Check other GIS Technicians work to ensure everything was created to company standards to maintain a high quality product.

- Quickly learned VBA to create an excel document to improve the speed and accuracy of the Design and GIS QC process.

GIS Technician | February 2019 - August 2019

Create prints using ArcGIS that describe where a crew can locate a power pole as well as what work will need to be done on said pole.

- Improved upon the existing GIS process by increasing the speed and accuracy the task could be performed.
