April 2016 to September 2017

I NEED 24 HOURS OF PDU'S TO REINSTATE.

REINSTATEMENT HAS ALREADY BEEN PAID.

Additional Information

Skills

- Ability to locate defects in wiring, switches, motors, and other electrical equipment.
- Strong ability to install lighting fixtures, circuit breakers, and service equipment (Gear).
- Strong ability to read blueprints and apply NEC through wide range of commercial and residential construction work. Experience includes hands on residential, commercial, and general trade knowledge.
- Strong ability to study and comprehend new technology.
- Ability to work from ladders, scaffolds, hydraulic towers, or in tunnels and crawl spaces.
- Inspect electrical systems, equipment, identify hazards, defects, and the need for adjustment or repair, and to ensure compliance with codes.
- Place conduit (pipes or tubing) inside partition walls, or other concealed areas, and pull insulated wires or cables through the conduit to complete circuits between boxes in accordance with Nec code.
- Great ability to assign work to employees, prioritize the work of others and organize and coordinate the work of the unit.
- Plan layout and installation of electrical wiring, equipment and fixtures, based on job specifications and local codes.
- Exceptional pipe bending and installation of wall mounted conduit including circuitry and Nec code requirements.
- Repair or replace wiring, equipment, and fixtures, using hand tools and power tools.
- Test electrical systems and continuity of circuits in electrical wiring, equipment, and fixtures, using testing devices such as multi-meter, and voltmeter.
