Work Experience

Warehouse Associate

Backdrop - Los Angeles, CA

August 2021 to Present

Began Working at Backdrop in August of 2021 as a Warehouse Associate, Backdrop is a start up paint company and as the Warehouse Associate I have helped fulfill orders as well as given input on how the Warehouse should be arranged as well as establishing a process which is more productive for us.

- Picking and packing orders as well as tinting and mixing paint, great attention to detail is required.
- As well as stocking and rearranging the warehouse if enough time is available, making sure everything is accounted for and in its rightful place and frequently cycle counting.
- Currently working with Shipstation as our main software.
- In charge of all returns that are received in the warehouse, once received I then separate the damaged and reusable paint cans.
- As well as collaborating with our marketing team for special projects when needed.

Fulfilment Specialist

Target - Culver City, CA

August 2019 to January 2022

Began working at Target as a cashier and self checkout operator, then moved to a new position in the Ship From Store fulfillment process handling online orders.

- Trained in Guest Services as well, which required me to handle returns, exchanges, handling phone calls and more.
- Trained in the Technology Department answering questions about current technology and pulling from our stockroom.
- Stock and organize inventory with accuracy and efficiency, completing tasks 20% faster than other associates.
- Assist team leaders when they are off the clock by being in charge of other associates, such as, planning their lunches, team plan, and more.
- Recently trained in Inbound. Tasks of loading target trucks, double checking stats of merchandise and updating it into the computer system, plus loading merchandise onto special carts for it to be provided to the sale floor for customers.

Fulfillment Associate

Hafele - Torrance, CA

April 2021 to August 2021

- Packing orders with efficiency and accuracy using Windows 10 and SAP software, using ProShip software to print shipping labels and also trained to manually type and print shipping labels.
- Separating orders into specific areas for packers known as pigeonholing using RF Scanner running on SAP software as well.
- Picking using RF scanners and scales to calculate weight and amount of a certain product, using zebra portable printers to print labels.
- Also experienced in Shipping and Receiving working with Stock Transfers and Inbound Delivery's, working on deconsolidation of cargo.

Busser

Culver - Culver City, CA

August 2018 to November 2018

- 4 months experience
- Assured all work areas, equipment, utensils, dishes and verified they are stored in the appropriate areas.
- Performed food and beverage service for the customers, such as, handing desired drinks and appetizers.
- Assured customers were happy with their experience.
