Professional Summary

I've worked as a water plant operator for 10 years I've built houses ran all types of machinery and heavy equipment and many different types of tools

Work Experience

Production worker 3

BI Incorporated (A GEO Company) | Gunbarrel, CO

April 2019 to Present

Production assembly / design and manufacture production fixtures

Craftsman

StVerain dovetail

March 2017 to June 2018

Assembly of custom wood work

Education

Water plant operator (High school)

Sexton high school | Lansing, MI

August 1976 to April 1979

Upper secondary education

Skills

Microscope proficiency Moisture content testing Corrective maintenance operations Labeling

Laser cutters Visual inspection for quality control Lubrication Routine inspections Lathe

Equipment calibration Precision measuring instruments Customer service

Ability to follow instructions Organizational skills GMP Quality assurance within manufacturing

Industrial mixers Equipment repair Mobile devices ISO standards Equipment diagnostics

Soldering Grinding machine operation Dimensional measurements Precision measurement in machining

Time management Procurement Technical Proficiency Overhead cranes MRP Milling machines

Mechanical troubleshooting Drum mixers Replacing parts Heavy lifting

Manufacturing company experience Coaters Capacity planning Blueprint reading FDA regulations

Water plant operator carpenter machine operator Manual handling Automated guided vehicle (AGV)

Side loader Conveyor belts Automotive repair Safety standards in production

Quality control sampling Safe work practices Production inventory management

Encapsulation machines Delivery driver experience Order picker Assembly wiring Power tools

Building interior maintenance Pallet jack Schematics Component installation

Mechanical assembly Welding machines Production scheduling Mechanical knowledge

Order fulfillment Temperature monitoring Crusher machines Fastening Assembly Manufacturing

Packaging Emergency repairs CNC Finished product defect inspection Press operation

Demand forecasting for production planning Forklift Assembly robots Calipers

Electrical maintenance

Managing production or assembly teams - Largest production or assembly team managed (6-10 team members)

Injection molding machines Safety protocol implementation Hand tools

Implementing lean manufacturing processes - Projects implemented using lean manufacturing processes (6-10 projects)

Compression testing Aggregate grading Driving Interpreting technical drawings Outdoor work

Attention to detail Slump testing Welding

Languages

English

Military Service

Second class petty officer | Navy | United States

November 1979 to November 1983

Description

I was a hull maintenance technician job duties welding plumbing and fire fighter on board ship

Certifications and Licenses

Driver's License

Certified Production Technician (CPT)

Additional Information

Authorized to work in the US for any employer

i Am a dependable and trainable person I am very dependable employee
